

# New Product SVC Guide [SM-G935F]

**Rev 2.7** 

Instructor: Hangjin Cho(hangjiny.cho@samsung.com)

### **Notice**

This guide is intended solely for the Samsung Electronics internal training and may contain trade secret, industrial technology or privileged and confidential information otherwise protected under applicable law including the Unfair Competition Prevention and Trade Secret Protection Act. Any unauthorized dissemination, distribution, copying of use of the information contained in this guide is strictly prohibited and subject to legal action.

All functionality, features, specifications and other product information provided in this document including, but not limited to, the benefits, design, pricing, components, performance, availability, and capabilities of the product are subject to change without notice or obligation. Samsung reserves the right to make changes to this guide and the product described herein, at anytime, without obligation on Samsung Electronics to provide notification of such change.

### **Contents**

- 1. Specification of SM-G935F (Galaxy S7 edge)
- 2. H/W
  - 2-1. New Concepts of H/W
  - 2-2. Disassembly & Assembly
  - 2-3. Troubleshooting
  - 2-4. R/F Calibration
- 3. S/W
  - 3-1. S/W Download
  - 3-2. Key Features
  - 3-3. New S/W features & New Concepts(UI/IX)
- 4. SVC Technical Information

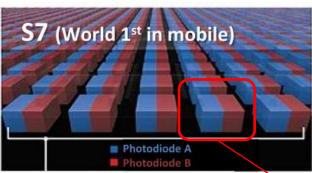

# **Specification**

Item	Spec.				
AD Chinaat	Vendor	Cores		Speed	
AP Chipset	S.LSI	Octa	-core	2.4 Ghz Quad + 1.6Ghz Quad	
	RAM			Flash	
Memory	4GB			32GB	
Diaplay	Size	Reso	lution	Туре	
Display	5.5 inch	1440 X 25	60, WQHD	Super AMOLED	
0.1150.	Resolution (Main/Front)	Auto Focus		Video (Main)	
CAMERA	12MP / 5MP	2PD Phase detection		1080p @ 60fps	
Naturali	2G/3G	LTE		LTE	
Network	Support	B1/2/3/4/5/7/12/17/20		Cat 11 (50Mbps UL / 600Mbps DL)	
Sensors	Accelerometer, Magnetic, Gyro,	Barometer, RGE	B Light, Proxim	ity, Fingerprint, Heart Rate Light	
Connectivity	Bluetootl	h 4.1, WIFI 802.	11 a/b/g/n/ac,	NFC, MST, USB2.0	
Battery & GPS	3,600mAh A-GPS & GLONASS & BEIDOU		A-GPS & GLONASS & BEIDOU		
Micro SD & OS	Up to 200GB	OGB Android V6.0.1 (Marshmallow)		Android V6.0.1 (Marshmallow)	
Remarks	Water Resistance : IP68				

#### **Dual Photodiode Sensor**

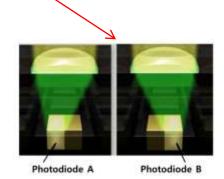

#### **Phase Detection**

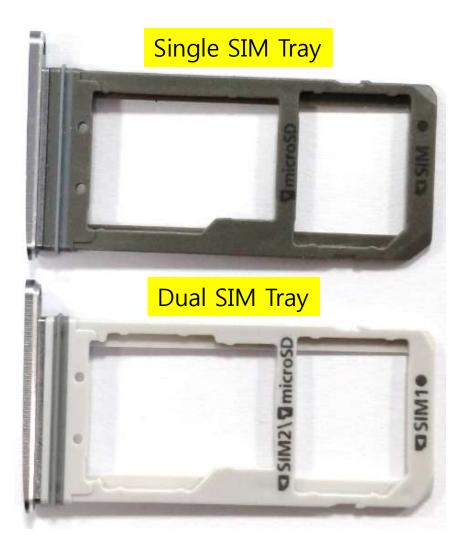

- Phase Detection pixel
   : Fixed numbers of pixels
   (120K, 0.7%)
- Phase Detection pixel
  - : All pixels (24M, 100%)
- ※ Used in Canon DSLR camera (70D)

- Super Fast AF Speed
  - S6 0.85s → S7 0.2s @ 20 Lux

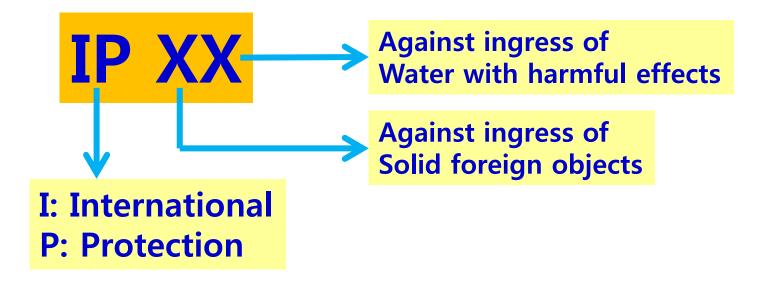

### MicroSD card Support – Hybrid SIM/SD socket

**IP68** 

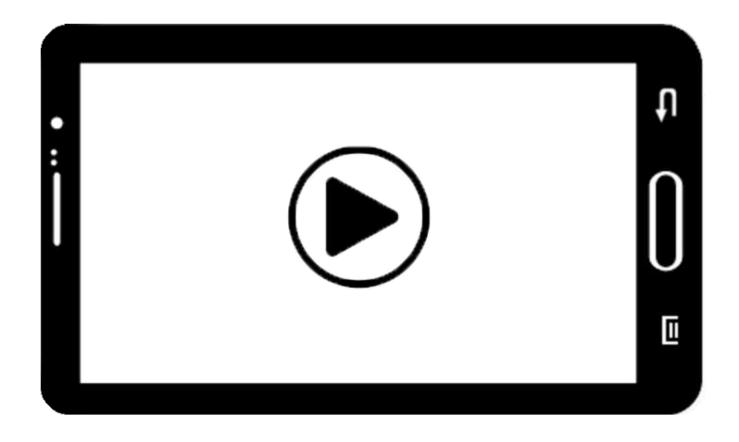

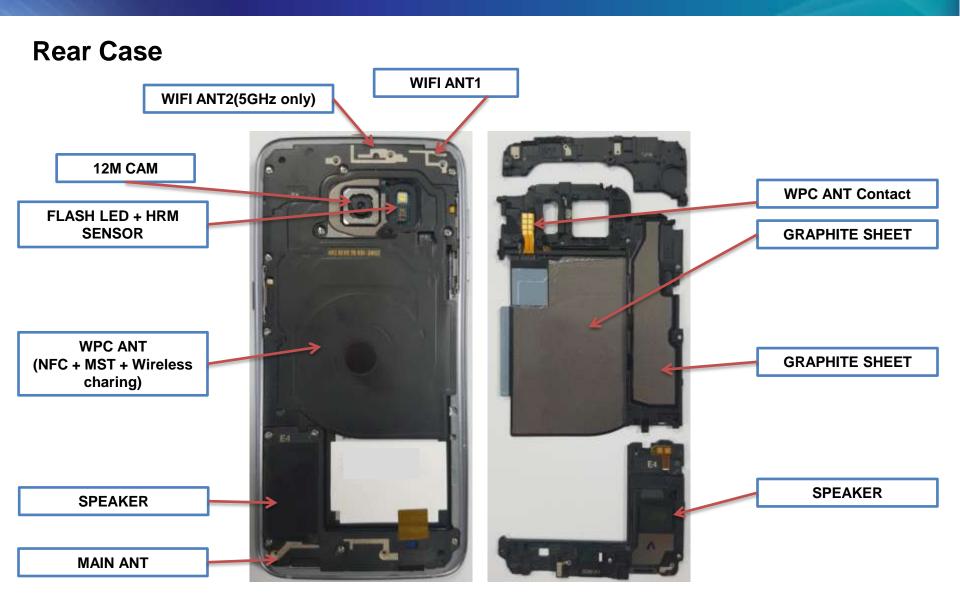

#### **IP68**

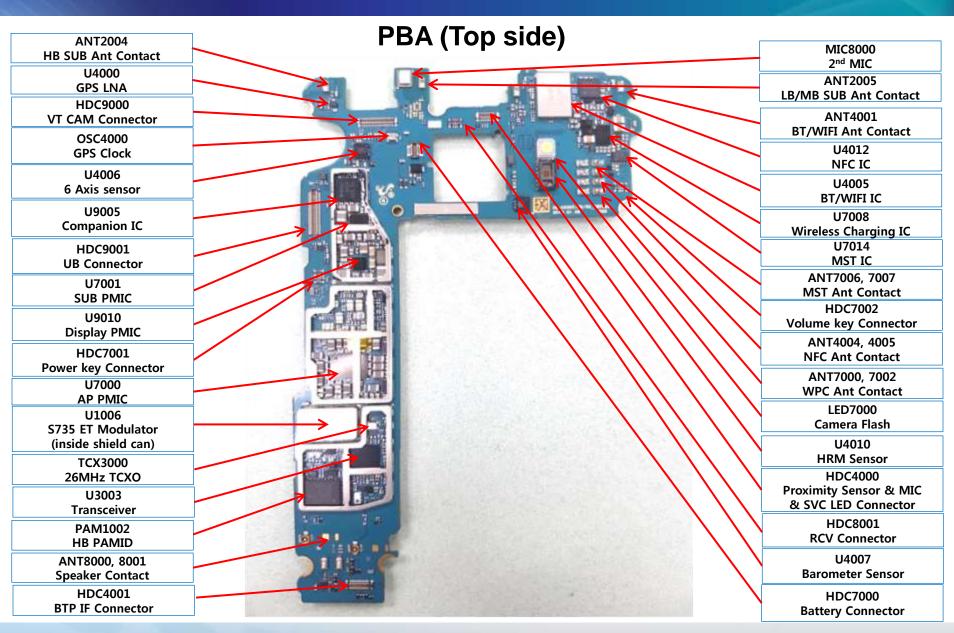

Level	Object size protected against	Effective against	
0	. <del></del>	No protection against contact and ingress of objects	
1	>50 mm	large surface of the body, such as the back of a hand, but no protection against deliberate contact with a body part	
2	>12.5 mm	Fingers or similar objects	
3	>2.5 mm	Tools, thick wires, etc.	
4	>1 mm	Most wires, screws, etc.	
5	Dust protected	Ingress of dust is not entirely prevented, but it must not enter in sufficient quantity to interfere with the satisfactory operation of the equipment.	
6	Dust tight	No ingress of dust; complete protection against contact (dust tight)	

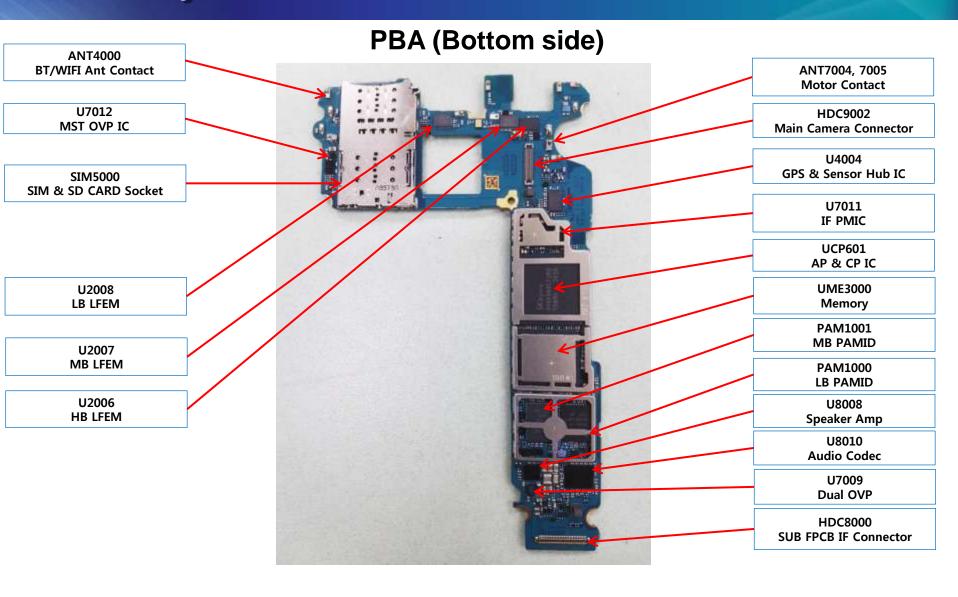

Level	Protected against	Effective against	
0	Not protected	-	
1	Dripping water	Dripping water (vertically falling drops) shall have no harmful effect.	
2	Dripping water when tilted up to 15°	Vertically dripping water shall have no harmful effect when the enclosure is tilted at an angle up to 15° from its normal position.	
3	Spraying water	Water falling as a spray at any angle up to 60° from the vertical shall have no harmful effect.	
4	Splashing of water	Water splashing against the enclosure from any direction shall have no harmful effect.	
5	Water jets	Water projected by a nozzle (6.3 mm) against enclosure from any direction shall have no harmful effects.	
6	Powerful water jets	Water projected in powerful jets (12.5 mm nozzle) against the enclosure from any direction shall have no harmful effects.	
7	Immersion up to 1 m	Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1 m of submersion).	
8	Immersion beyond 1 m	The equipment is suitable for continuous immersion in water under conditions which shall be specified by the manufacturer. However, with certain types of equipment, it can mean that water can enter but only in such a manner that it produces no harmful effects.	

# **Disassembly & Reassembly**

#### **SUB PBA**

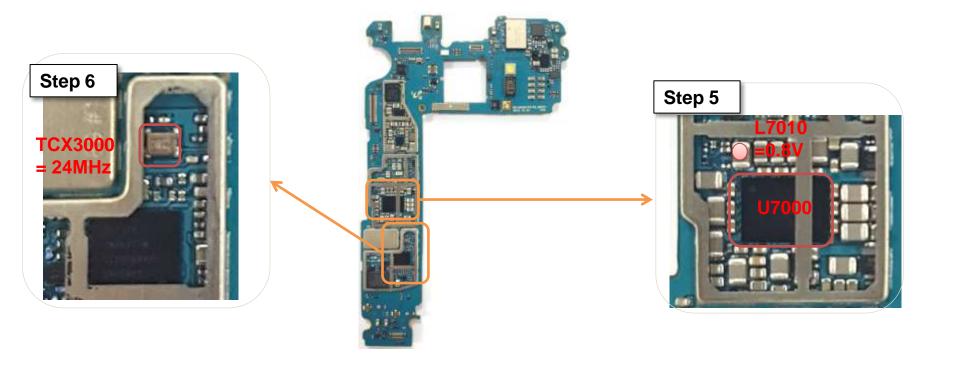

#### **No Power**

Step	Check point	Result value	Defect point
1	Confirm the defect symptom	-	-
	* * Analyse reasons of No-Power using the	PASS	Battery, Battery connector, Physical Key
2	Power & Current test jig Power test mode. Docu		Go to the step 2.1
		Power On Current fail	Go to the step 3
	Check the Resistance between JIG Power	Normal (Over dozens of $K\Omega$ )	Go to the step 5
2.1	V_Battery / VPH_PWR/ V_BAT and Ground. (C701,C805)	Abnormal	Capacitors for ESD protection
3	It's possible to enter the download made?	Yes	Go to the step 3.1
3	It's possible to enter the download mode?	No	Go to the step4
0.4	Objects if it's read of	Rooted	OOW
3.1	Check if it's rooted.	Normal	S/W update
	01 - 1 - 1 1 1 - 0 - 7 - 1 - 0 1	C7129 = Power supply voltage	Go to the step 5
4	Check the voltage of C7129	If not the correct value	Replace the U7011
	Observation and the second 1.7040/ DMIO Outrout)	L7010 = 0.8V	Go to the step 6
5	Check the voltage of L7010(=PMIC Output)	If not the correct value	Replace the U7000

<sup>\*\*</sup> Usage guide of the Power & Current test jig has been uploaded at GSPN. (Power & Current Tester\_Rev4\_150716.pdf)

### No Power (cont')

Step	Check point	Result value	Defect point
6	6 Check the frequency of TCX3000	26MHz	Main chip (UCP601)
0		If not the correct value	X-TAL (TCX3000)

#### Power on but no operation (freezing)

Step	Check point	Result value	Defect point	
1	Confirm the defect symptom	-	-	
		PASS	Go to the step 1	
2	* * Analyse reasons of No-Power using the Power & Current test jig.	Leakage Current fail	Refer to the No-power Troubleshooting	
	Tower & Julione took jig.	Power On Current fail	Go to the step 3	
3	It's possible to enter the download made?	Yes	Go to the step 3.1	
3	It's possible to enter the download mode?	No	Go to the step 4	
2.4		Rooted	OOW	
3.1	Check if it's rooted.	Normal	Go to the step 4	
4		Solved	3 <sup>rd</sup> party Apps.	
4	Enter the safe mode, and check if powers up.		Go to the step 5	
	Doutous full wood	Solved	S/W or 3 <sup>rd</sup> party Apps	
5	Perform full reset.	Not solved	Go to the step 6	
		Solved	S/W	
6	Upgrade software to the latest version.	Not solved	Replace the eMMC	

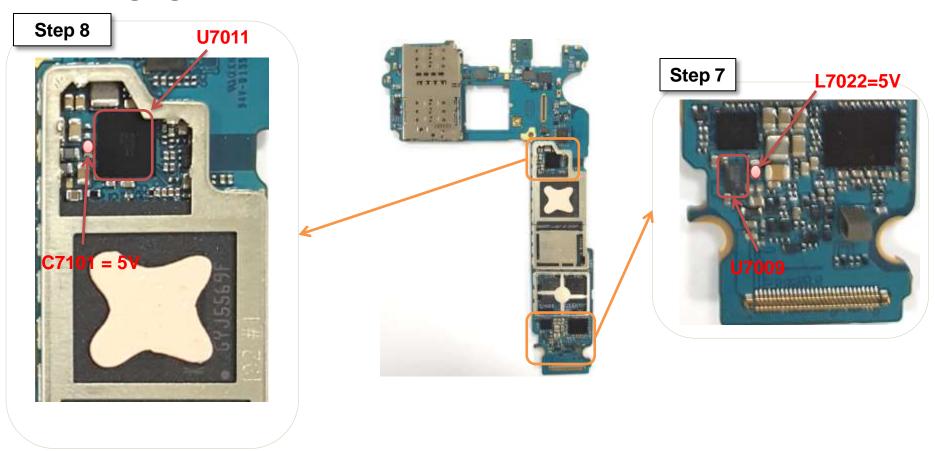

<sup>\*\*</sup> Usage guide of the Power & Current test jig has been uploaded at GSPN. (Power & Current Tester\_Rev4\_150716.pdf)

### **No Charging**

Step	Check point	Result value	Defect point
1	Confirm the defect symptom	-	-
2	Charge the customer battery during	Solved	Totally discharged battery
	5min at least.	Not solved	Battery
	** Analyse reasons of No-Charging using the	PASS	Go to the step 4
3	Power & Current test jig Charging test mode with no defect charger.  (Test battery voltage should be below 85%)	FAIL	Go to the step 5
	** Test a customer's charger using the Power &	PASS	Go to the step 1
4	Current test jig TA test mode.	FAIL Customer's Charg	Customer's Charger
		Dust	Clean I/F connector
5	Disassemble and check I/F connector visually	Damage	Replace I/F connector
		Normal	Go to the step 6
6	Replace a battery	Solved	Go to the step 1
	Neplace a ballery	Not solved	Go to the step 7
7	Check the voltage of L7022	L7022 = 5V	Go to the step 7
	Official title voltage of L1022	If not the correct value	may not connected charger
8	Check the voltage of C7101	C7101 = 5V	Replace the U7011
ď	Officer tife voltage of O7 101	If not the correct value	Replace the U7009

<sup>\*\*</sup> Usage guide of the Power & Current test jig has been uploaded at GSPN. (Power & Current Tester\_Rev4\_150716.pdf)

### **No Charging**

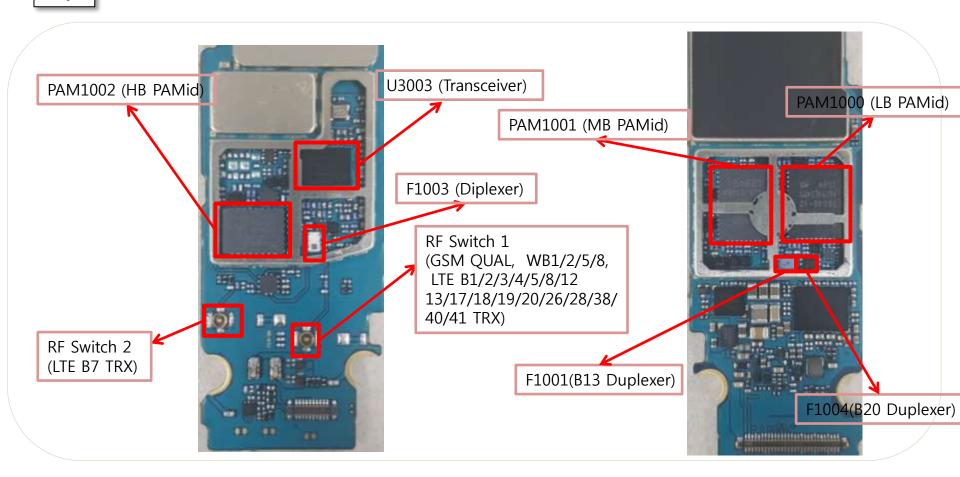

### **Call Problem (with RF equipment)**

Step	Check point	Result value		Defect point
1	Confirm the defect symptom	-		-
2	RF radiation test		Pass	Network or Settings
	KF faciation test		Fail	Go to the next step
3	RF calibration		Pass	Go to the step 4
3	Kr Calibration		Fail	Go to the step 5
			Pass	Repaired
4	RF radiation test	Fail		Except PBA (Coaxial cable, Antenna, Shielding condition)
		TX	Low band	Diplexer, low band PAMid, Duplexer, Transceiver
			Mid band	Diplexer, Mid band PAMid, Duplexer, Transceiver
E	A true of failure		High band	Diplexer, HB PAMid, Transceiver
5	A type of failure		Low band	Diplexer, low band PAMid, Duplexer, Transceiver
		RX	Mid band	Diplexer, Mid band PAMid, Duplexer, Transceiver
			High band	Diplexer, HB PAMid, Transceiver

#### **Call Problem**

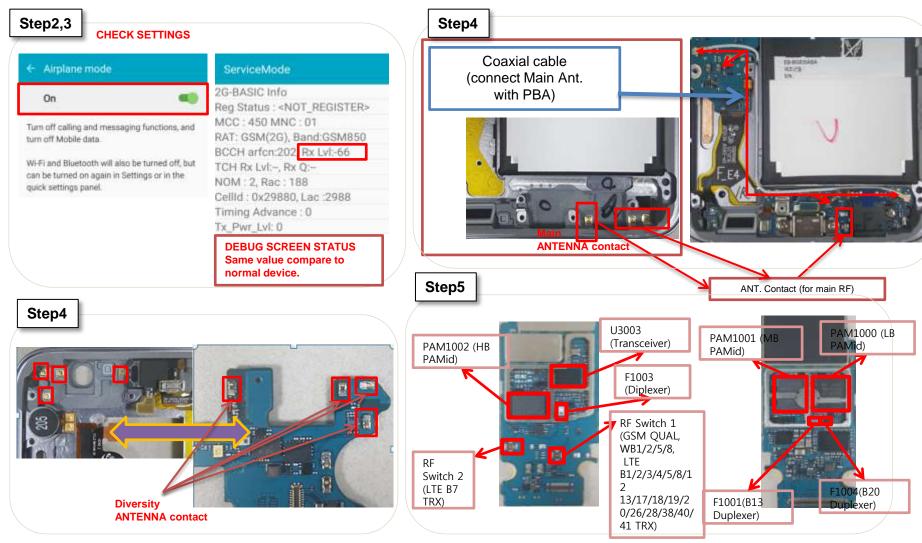

Step5

### **Call Problem (without RF equipment)**

Step	Check point	Result value	Defect point
1	Confirm the defect symptom	-	-
2	Check the settings	Abnormal	Settings
	(airplane mode, Mobile networks)	Normal	Go to the next step
3	Check the debug screen *#0011#	Abnormal	Go to the next step
3	(Compare to normal device)	Normal	Network
		Broken, dust, corrosion	RF parts
4	Check the RF parts except PBA. (Coaxial cable, Antenna, Shielding condition, etc)	Loose fitting Connection  Normal Go to the next step	Connection
	(Coamai casis, runomia, Cimeranig comanion, cton)		Go to the next step
	Check the status visually(crack, missing,	Abnormal	RF components.
5	Corrosionetc) of RF components. (compare to normal PBA)  U3003 Transceiver PAM1000 Low band PAMid(PAM + FEMid) PAM1001 Mid band PAMid(PAM + FEMid) PAM1002 High band PAMid(PAM + FEMid) F1001,1004 Duplexer F1003 Diplexer	Normal	CP(Call Processor) (UCP601-2)

#### **Call Problem**

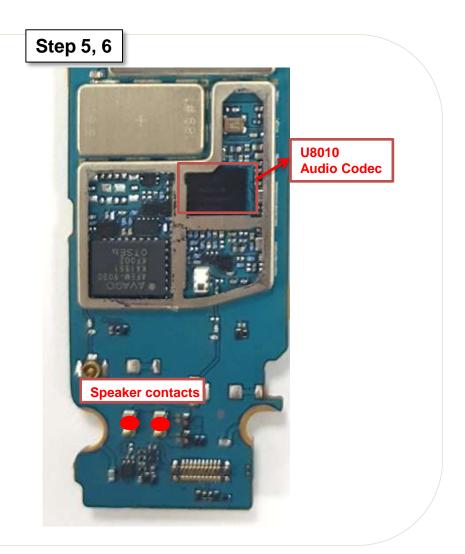

#### **Sound Problem**

Step.	Check point	Result value	Defect point
1	Confirm the defect symptom.	-	-
2	*#0*# . anackar	No sound	Go to the next step
2	*#0*# → speaker	Normal	S/W or Settings
	Devile se the encelver	Solved	speaker
3	Replace the speaker	•	Go to the next step
4	Activate the speaker path. (*#0*# → Speaker)	-	-
5	Check the signal at two of speaker contacts. (Using oscilloscope)	Same signal compared with a good PBA	Go to step 6
	Notice: It should be measured when the speaker path is activated on.	No signal Audio	Audio Codec (U8010)
0	Check if the SPK is contacted to PBA well, and	Solved	Assembly error
6	assemble the phone again.	Not solved	Go to step 3

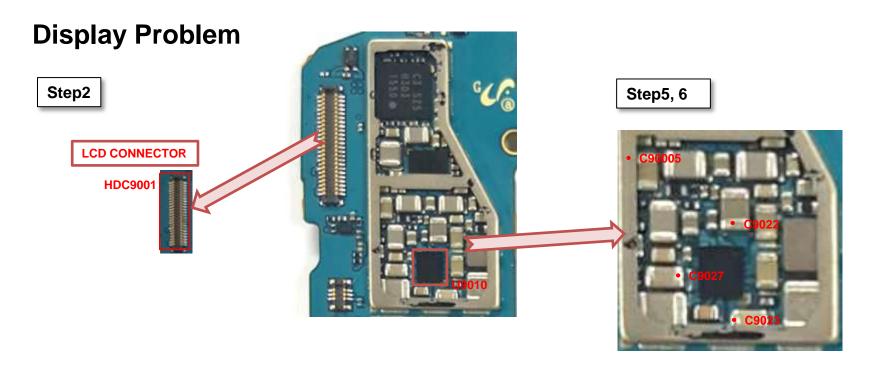

#### **Sound Problem**

### **Display Problem**

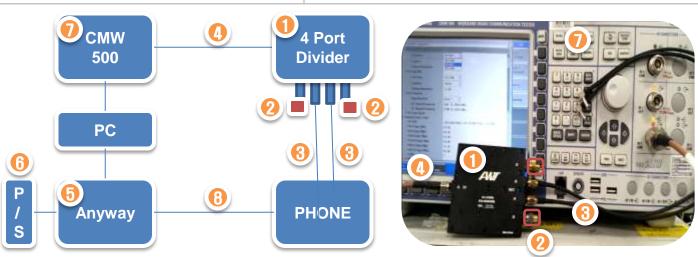

Step	Check point	Result value	Defect point
1	Confirm the defect symptom	-	-
		Broken, dust, corrosion  UB connector (HDC9001)	
2	Check the UB connector (HDC9001)	Loose fitting	Connection
		Normal	Go to the next step
	Dania as the LID ass'y	Solved	UB ass'y
3	Replace the UB ass'y	Not solved	Go to the next step
4	Connect a UB, and display on with a power supply (power supply voltage : 4.0V)	-	-
	Check the voltage of C90000, C90005	If not the correct value	Display PMIC(U9010)
5		C90000=3.0V C90005=1.6V	Go to the next step
	Check the voltage of following chips (C9023,C9022,C9027) Notice. It should be measured when the display is activated on	If not the correct value	Display PMIC(U9010)
6		C9023=4.6V C9022=-1.4~-5.4V C9027=5.8~7.9V	MAIN CHIP

# **RF Calibration Preparation**

Item	Quantity	Code
4 Port Divider	1	GH81-11962A
2 50 ohm Termination	2	GH81-11962E CABLE CODE
RF cable (Divider to phone)	2	GH81-11962M
RF cable (Instrument to divider)	1	GH81-11962U
6 Anyway JIG	1	-
Power Supply	1	E3632A
RF Equipment	1	CMW500
(B) IF cable 1 GH81–1095		GH81-10952A

Connection Diagram

### S/W Download

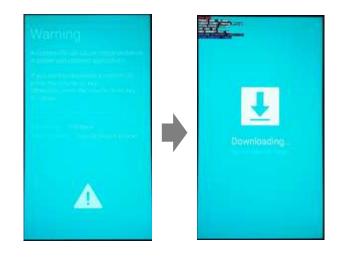

#### How to enter the S/W download mode

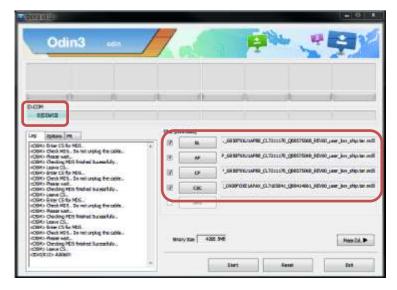

- Turn off the device
- Press 3 buttons simultaneously
   (Volume down + Home + Power on)
- 3. Press volume up button after 'Warning' message.
- 4. Connect the USB cable after 'Downloading' message.

For force to reset, press Volume Down+Power key during 7 sec.

#### How to download S/W

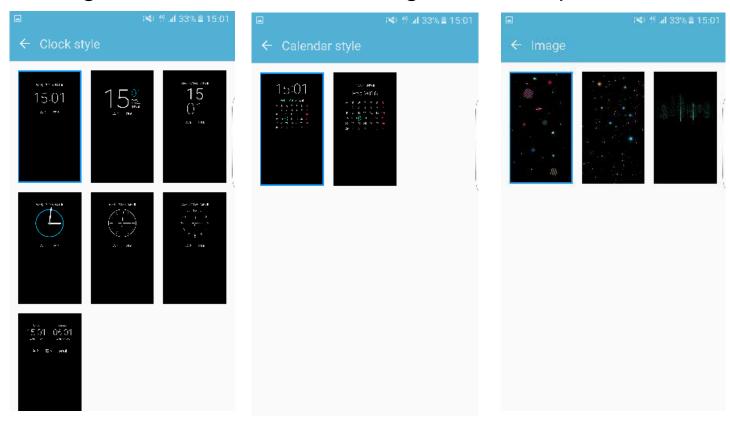

- 1. Run the Odin tool with 3.11+ and check the device is connected to Odin.
- Select each 4 S/W files.(BL, AP, CP, CSC)
- 3. Press the start button in the Odin.
- 4. Automatically reboot the phone when the downloading is completed.

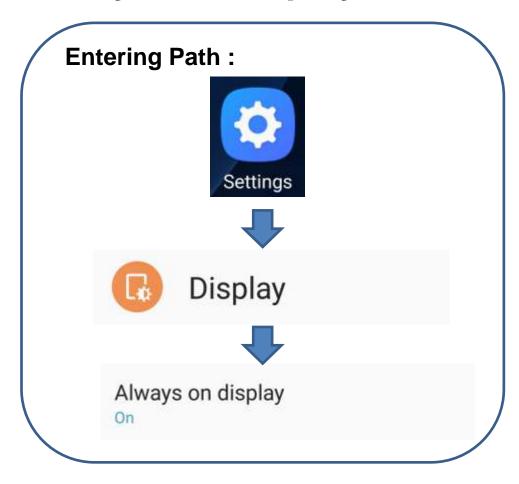

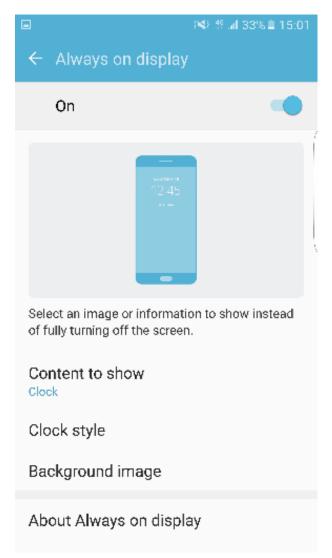

### **Always On Display**

- Show clock/calendar/image during LCD off
- Estimated usage time will be reduced by approximately 1~2 hour after AOD on
- For avoiding LCD burn, location of image will move per 1 min.

# **Always On Display**

#### **Game Launcher**

#### **UX** scenario

#### **Main features**

- Activated when 1<sup>st</sup> game is installed from any store (Google / Galaxy apps)
- Gathers installed games automatically (For quick access)
- Game features / settings for improving game experience
- Promote new offers and games

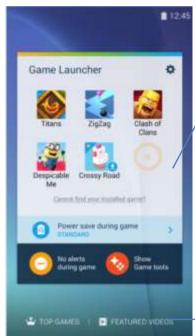

After 1<sup>st</sup> game is installed, pop-up occurs to request the activation of the service

Game features
To improve game experience

Game & video recommendation

#### <Save battery usage while playing>

To lower power consumption, it controls brightness, resolution, frame rate of a game

#### <No alerts during game>

discrete call & alarm notification, suspend notifications

#### <Game tools>

Display the game features while playing

#### <Top Charts>

Game Rankings based on usage data of galaxy devices

#### <Game Videos>

popular YouTube videos related with the installed games on the device

### **Game Launcher**

#### - Power save during game

#### [ Details ]

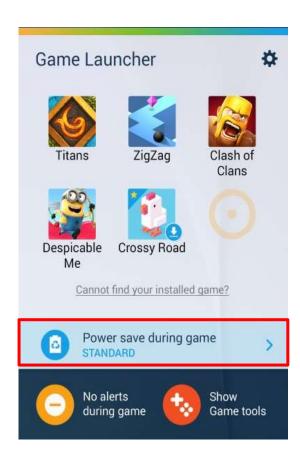

- Save battery consumption via Brightness, Resolution and FPS control
- Reduction of 10~20% battery usage than existing function
- Custom settings
- · Resolution : Standard / Low / Extreme low
- · FPS: 15FPS ~ 60FPS (adjustable every 5FPS)

#### [ Functions comparison with other solutions ]

- Power saving mode: Save battery power by reducing screen brightness, turning off the touch key light, turning off Vibration feedback etc.
- Power Save for game : Brightness, Resolution and FPS control

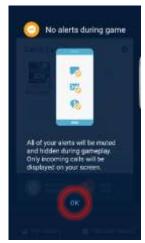

# [ Estimated saving rate on real games ]

- Increase playtime about average 19%
- Additional playtime
  - · Clash of Clans: 2.31 Hours
  - · Candy Crush Saga: 0.96 Hours
  - · Cookie Run: 3.75 Hours

### Game Launcher - No alerts during game

#### **UX** scenario

No alerts during game : ON

Game play

\* Game play screen under 'No alerts during game' mode

#### Feature detail

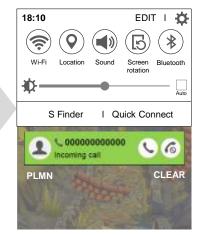

#### [ No alerts in game ]

- Letting a player to focus on his play by minimizing incoming calls and suppressing SMS, and other pop-up notification.
- Call is notified with a discrete pop-up and disappear after 3 sec.
- All missed calls and notifications are stacked in the quick panel.

#### [ Comparison with 'Do not disturb' feature]

- Do not disturb: Device to mute all calls and alerts.
- No alerts in game: Mute all calls and alerts, discrete pop-up for calls, stack notifications in the quick panel without pop-up

<sup>\*</sup> call's pop-up notification. If user clicks, then available to answer the call via the guick panel.

### Game Launcher - Game tool

#### **UX Scenario**

Game start

Guide at 1st launch

- Floating icon\* for opening Game tools

#### **Main Feature**

#### [Screenshot]

- Capture game screen while playing
- Easy to do by just touching the screen (instead of H/W button)

#### [ No interruption ]

- Minimize incoming call, message, alarm via discrete pop up
- Pop-up consists in 3 sec. discrete visual on top of the screen

#### [ Keep Alive game ]

- Minimize the game without terminating the application

#### [ Game Record]

- Video recording the game while playing
- Use front camera and in-and-out sound recording at the same time

Pop-up

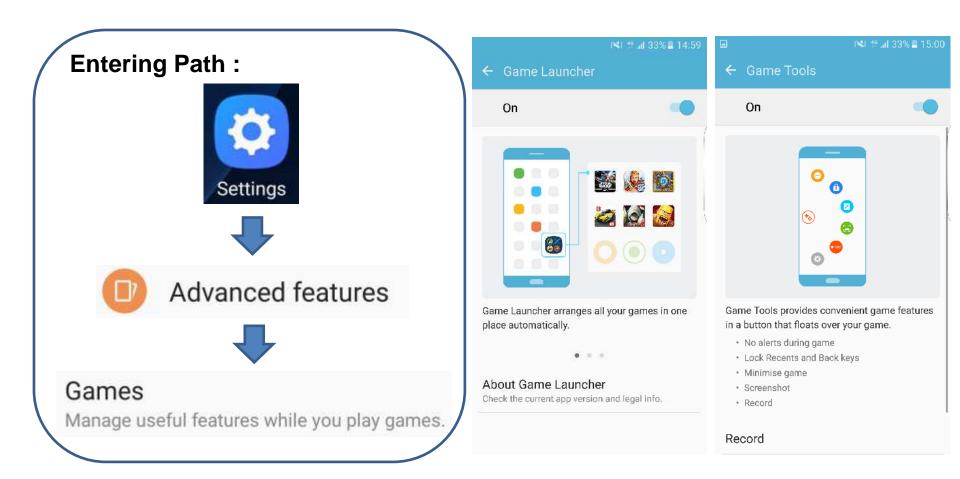

Keep alive game

Game video recording
(w/ front camera & Sound)
Confidential

### **Game Launcher / Tool**

#### Camera

#### Quick Focus in the low light

AF in low light -approx. 0.2 sec / S6: 0.85 sec

#### Motion Panorama

Panorama image/video captured at the same time with just one shot

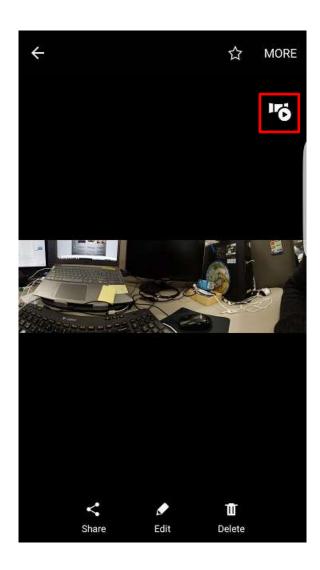

#### Motion Photo

Record a short video clip of what happens before each picture is taken

#### Save as RAW file

Save pictures without compression in Pro mode. When this option enabled, each picture will be saved as both a RAW file and a JPG file. Additional viewer app is needed for RAW file.

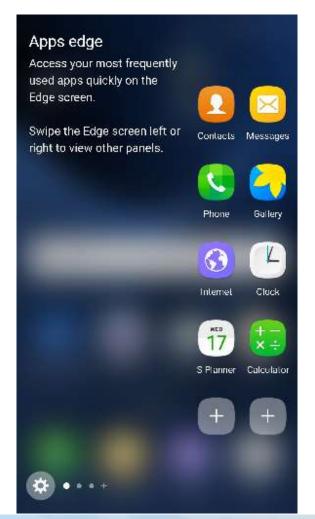

Entering Path : CAMERA → Tab a selective focus Icon

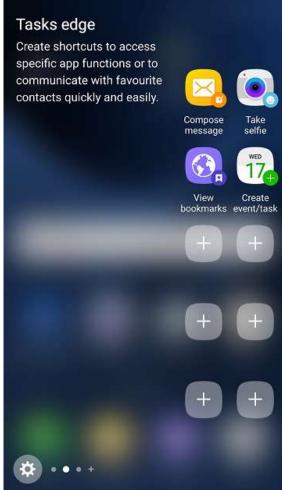

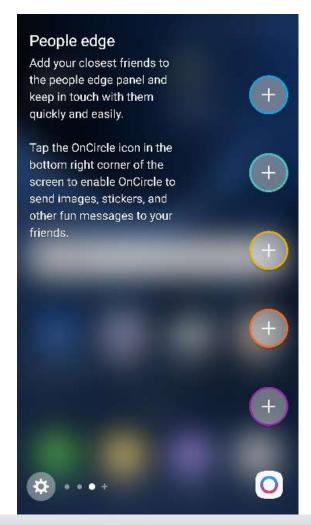

# **Key Features for G935F only**

# **Enhanced Edge UX**

- Edge region is wider and useful shortcut added

### **SVC Technical Information**

#### **Basic Information**

AP Chipset	CP Chipset	IF Cable	RF Cable		RF Divider
	SEC E8890	GH81-10952A	GH81-11962M (pi : 1.2T)		GH81-11962A
	Charger S	Spec			Water Resistance
Adaptive (5.0 V-2A, 9.0V-1.67A)		_	-	IP68	

### **SVC Jig List for Galaxy S7 Edge**

Item	Item Code I		Code
Hot Plate	GH81-12712E(220V)	Acryl Jig Rework Foam	GH81-12065B
OCTA Disass'y Holder	GH81-12119A	OCTA Disass'y Jig Upper	GH81-12833A
Glass Absorber	GH81-11902D	Double Sided Tape	GH81-12126A
TSP tape Attaching JIG	GH81-11905A	Pressing JIG Body	GH81-11903A
Pressing Pad(for OCTA/battery)	GH81-13537J	Pressing Pad(for Battery)	GH81-12694A
Weight and Pad for water resistance Test	GH81-12046A
